The Artists Selection Criteria

A short and clear project description, in which the quality of the project, concept and accessibility to the audience is key.

A clear description of the give-back proposal, for which it is very important that proposal offers a connection between the artist' project in development and the community.

As an example, this event could be a 'Sharing' event, where the artists explain the concept that has been working on, explaining in detail to the participants how the dance process is approached, groups of movements and choreography. Leaving space also for questions from the audience.

The residency places are available to young/upcoming artists as well as to established artists and ensembles.

Elements excluded from the agreement.

The artists are responsible for finding its own accommodation in Freiburg during their visit. We have a list of spaces we can recommend, and many of them offer special prices to Studio ProArte's artists, please let us know you want to have access to that list.

For the moment, we have no capacity to cover any travelling or daily expenses. All these aspects need to be calculated and managed by the artists themselves.

Rehearsal Times

This is a Day Time Rehearsal space, which is available for this Rehearsal program from 08:00 to 16:00 hours, and in some days up to 17:00 hours. However, we are happy to offer the space during the weekends connected to the agreed working weeks, when the space is available. In very special cases, we can offer a late afternoon/evening space, which is smaller, and can only be sufficient for up to 3 artists. This must be requested, and availability confirmed.
